It is a web application for clinical tracking, designed specifically for direct-entry midwifery programs and customized for your school.

MOBILE-FRIENDLY

MADE FOR YOUR SCHOOL

EASY TO USE

CUSTOM TOOLS
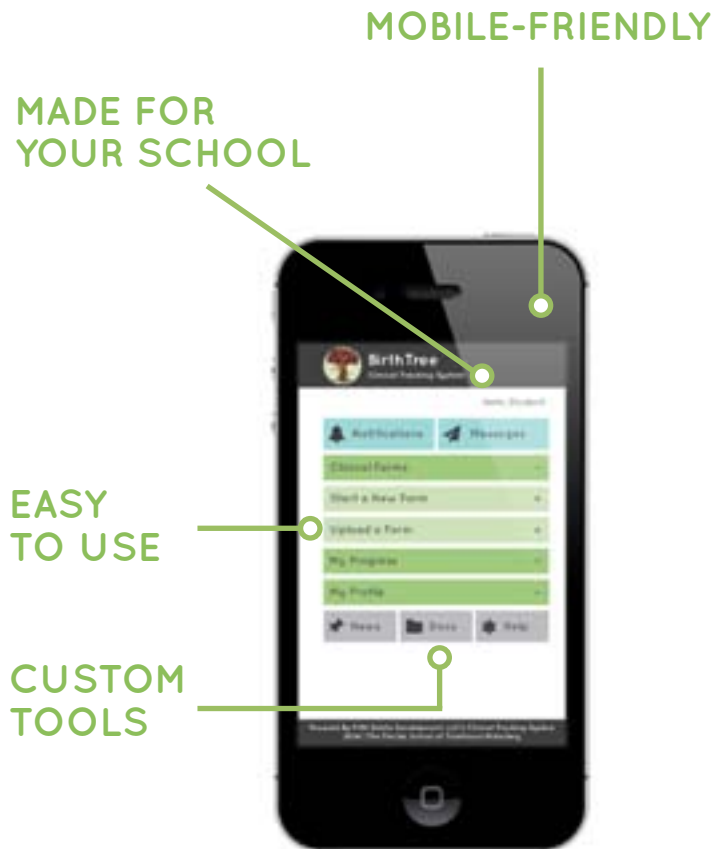

CUSTOMIZABLE

Because each school has its own unique domain name and server hosting, you can name your app to fit the personality of your school. We can even create a custom logo!

AFFORDABLE

Tiered setup prices allow you to pay based on the number of students. We customize the app for your school, so you won't pay for any features that you don't need.

ACCESSIBLE

Our responsive design is optimized for mobile devices. The app can be accessed anywhere there is an internet connection. For more info, please visit ClinicalTrackingSystem.com

Form Builder
Create and edit your own customized clinical forms

Document Management
Expiration reminders for preceptor & student records

Customer Service
A real person will respond to you within 24 hours

Message System
Send messages to other users through the app

On-Call Calendar
Students & preceptors can manage their schedules

Progress Tracker
Easily track students' clinical progress

Easy-to-use Interface
Manage all of your school's clinical data in one place

Cloud Storage
Go paperless! All data is stored in the cloud

Notifications
Customized system notifications and reminders

Preceptor Forms
Use the form builder to create forms for preceptors

Can't find what you're looking for?

Ask us about any feature you'd like to add, and we'll give you a quote! We provide custom web development and design services, so we can tailor the app to fit your school's specific needs. We work one-on-one with you to create a system that works for your school.

Available Add-ons

Two-Step Login Verification
Require that a users enter a code sent via SMS text in addition to their password

SMS Text Reminders
Include the option of SMS text notifications and reminders
